Hunting Policy on Lands in the control of Brewster Water Commissioners

The Brewster Board of Water Commissioners reviewed the land use policy for hunting on lands within their control at a scheduled commissioner's meeting on October 16, 2014. The following were agreed to unanimously:

Hunting will be permissible on land in the original wellfield, Wells # 1 & 2 off Freeman's Way, referenced as Brewster Assessor's map 107, parcel 1 and adjoining lots on map 105 parcels 5, 6, 7, 8, 9, 10, 11 and 12. Also, hunting will be allowed on the former Frey property, map 94 parcel 111 and map 106 parcels 1, 2 and 3.

This policy will be in effect as long as all other lawful requirements for hunting within the Town of Brewster and of the Commonwealth of Massachusetts have been met. Brewster Water Department employees are required to enter these parcels on a daily basis in the performance of their regulated duties, therefore hunters are required to exercise extreme caution while hunting these lands.

Hunting will not be allowed on land known as the Rafe Pond Watershed, Well #3 off Freeman's Way behind the Brewster Recreation Fields, referenced as Brewster Assessor's map 120 parcel 2.

Hunting is forbidden on any lands within the Punkhorn Parklands that are under the custody and control of the Brewster Water Department until such time that it is permitted by all other agencies of the Town of Brewster having custody and control of the contiguous lands.
